Below the title, there is a text input field containing 'Server First Team' and a 'Delete' button. To the right, a 'Saved Teams' list shows 'Server First Team' and 'Water Team', followed by several '- Empty -' entries. In the center, a parrot pet is shown with 'Pet Points: 40' and 'Edit' and 'Delete' buttons. Below the pet, there are three more 'Pet Points: 0' labels with 'Edit' and 'Delete' buttons. At the bottom, there is a chat input field with the placeholder text 'enter chat message'. On the right side, there are two buttons: 'Select Stage' and 'Duel Player'. Yellow callout boxes with arrows point to various elements: 'Earn more points to make stronger teams!' points to the 'Current Team Points' area; 'Name your team here!' points to the team name input field; 'Edit your pet here!' points to the 'Edit' button for the parrot; 'You can chat with your friends!' points to the chat input field; 'Select your team here!' points to the 'Saved Teams' list; 'Select a stage to fight and earn points!' points to the 'Select Stage' button; and 'Player duels are coming soon!' points to the 'Duel Player' button.

Cost Adjustment tells you what the cost increase is for picking the skill in a slot it wasn't meant for. It can get expensive!

The more rare the skill, the stronger it is. And the more expensive.

Save when done, or use No Skill button if you decide you want to remove a skill from a slot.

Scroll through all the stages you have unlocked. Which may only be one when you start.

Pick the pet to fight. You only get points the first time you win! Many stages will require you to have the right team to win.

Stage bosses are particularly hard. Can you figure out their weakness!?
